## Complaint: the ECHA's contracts with Ramboll

Pia Engelbrecht-Bogdanov · Thursday, July 17th, 2025

Today, Transparency International EU, alongside other NGOs dedicated to transparency and ethics in the European Union, submitted a complaint to the Executive Director of the European Chemicals Agency (ECHA), Dr Sharon McGuinness, concerning the ECHA's contracts with consultancy Ramboll, following [reporting](#). Ramboll has advised the ECHA on issues related to so-called 'forever chemicals', while advising companies on the same topic.

We ask the ECHA to detail on what basis it decided a contract with Ramboll would not constitute a conflict of interest. We also request an urgent review of all of the ECHA's contracts with Ramboll.
